## IOSH Development fund

**Our Development fund brings innovative ideas to life. Funding is available to members or groups of members who have an idea that supports the **IOSH vision** and helps improve occupational safety and health practice. We can also give funding for feasibility studies, which may lead to the development of an initiative.**

You can apply for funding at any time during the year. If you're interested in applying for IOSH development funding:

- Get in touch with [us](#) and we'll offer you some general advice on whether, or how, to take your idea further
- Fill in the [development fund application form](#) - we'll send you an email to confirm we've received your form
- An IOSH director or head of department will then look at your application and, depending on how much funding you've requested, will advise the Chief Executive and Finance Director, or the Board of Trustees on its suitability. We'll let everyone who applies know the outcome they reach.

Do you meet our criteria for development funding? If so, [apply for funding online...](#)

If you need more information contact the [Research and Technical Services Team](#).
