# Welcome

**On behalf of the committee of the South Downs Branch, I'd like to welcome you to our new website. We hope that you'll find the new format an interesting, helpful and informative way of keeping you up to date with the branch's activities and events and also with other IOSH activities which are of particular interest to you.**

This is the start of a new period in IOSH, as there are several major changes taking place both at management level and at branch level.

We hope that you'll find the new website helpful and that it'll soon become your website of choice for the latest information and news relating to health and safety.

**Sarah Williamson CMIOSH  
Chair, South Downs Branch**
